

1. To view this project, simply open "index.html" in the browser. Initially the user interface should be shown like below:

where one can choose a csv file that contains S&P 500 index history data. I have included the S&P 500 Index last 2-year history data that I downloaded from <https://www.wsj.com/market-data/quotes/index/SPX/historical-prices>

2. Choose the file "HistoricalPrices.csv" and click on "Submit the S&P 500 Index history data file (.csv) to plot the candlestick", then the plot will pop up like this:

It is an interactive plot that you can drag, zoom in or zoom out to see more details.
